Projects

Smart Contact Manager

GitHub Live Demo

- Built backend using Spring Boot, Spring Security, Spring Data JPA and Hibernate with JWT authentication
- Developed RESTful CRUD APIs with pagination, search, validation and MySQL integration
- Integrated Razorpay payment gateway and image upload functionality
- Deployed application on Render with MySQL database integration

Smart Interview Prep Platform – AI-Powered Interview Preparation

GitHub

- Built full-stack application using Spring Boot, Spring Security, Spring Data JPA, Hibernate and MySQL
- Implemented JWT authentication with role-based access control
- Integrated Gemini AI API for AI-powered interview question generation and answer evaluation
- Developed voice input using Web Speech API and implemented a progress tracking dashboard
- Designed REST APIs for user management, interview sessions and AI question generation

Achievements

- Solved **200+ DSA problems** across LeetCode and GeeksforGeeks covering Arrays, Strings, Hashing, Recursion, Searching, Sorting and Trees
- Part of a **Guinness World Records** attempt via the TCS iON “AI for All” initiative – April 2026
